

RADIO DRIVE FEATURING KEVIN GULLICKSON

“Humanity”

“Humanity” was written as a song to remind people that deep down we are all the same. It was originally released in 2011 on Radio Drive’s CD “I Can See The World From Here.”

In late June of 2015 world-renowned producer, Stuart Epps, heard “Humanity” on a music community and it caught his attention. Over the years Stuart has worked with some of the most influential musicians in rock history, including George Harrison, Jimmy Page of Led Zeppelin, Elton John, Bad Company, Bill Wyman of the Rolling Stones, and more. He contacted Kevin and wanted to work with him and produce this song. Kevin now had the honor of being added to Stuart’s impressive list of musicians he’s worked with.

Over the following weeks Kevin recorded all the vocals and instruments at his home studio and sent the files online to Stuart, who worked his production magic, mixed and mastered the song. The end result was a work of excellence.

The song was finished in mid-August. Kevin, together with his management team at Artista Group, will launch an international radio and press campaign.

Humanity

Sometimes the world is a lonely place,
forgets your name, forgets your face
Sometimes the world it doesn’t care,
turns its back, leaves you there

We’re all part of society,
one nation tribe, one family
Open your eyes and you’ll see,
this thing we call Humanity

Side by side, hand in hand,
we’ll get the word across the land
Everyone, one by one,
we won’t stop until we’re done
Though we might disagree,
we are all one family
Love and hope and unity,
that’s what makes Humanity

There is more to the heart of man,
more than we will understand
A noble prince, a wretched fiend,
a choice to make, a life to lead

Stay and build, give, receive,
nothing more than you believe
Be a part of the dream,
this thing we call Humanity

(Chorus)

We’re all alike under our skin,
a common heart deep within
The more you look, the more you find,
an invisible thread running through man-
kind

We’re all part of society,
one nation tribe, one family
Open your eyes and you’ll see,
this thing we call Humanity
